

Welcome to Kingstone High School

At Kingstone High School we take great pride in the facilities that we offer our students. We benefit from the largest school site in Herefordshire. Our main school building was built in the 1960's and later additions have been placed on the site to meet the expanding needs of the students: we have a purpose built science block, and Arts and DT blocks. Our classrooms are large and light and our class sizes are small. Classrooms are well equipped with interactive whiteboards, linked to high quality learning resources. We have six fully furnished computer suites plus a specialist Language ICT suite, allowing all students to gain regular computer access.

Our Performance Hall has tiered seating for hundreds and has staged many high quality school productions. The Art and Music block has an extensive range of facilities including Music room, and four practice rooms. The Sports Hall offers a high quality and spacious venue suitable for all sporting needs. It has four Basketball courts, and is also marked out for Badminton, Netball, Tennis and Five a side Football. In our extensive grounds we have the full range of sports facilities and pitches are maintained a high standard throughout the season, and orchards, meadows and gardens. We also have an outdoor classroom and a specialist building to suitable for Land Based studies.

The HUB, our Intervention Centre, comprises of a large learning space, adjoining kitchen area, computer areas and several individual meeting rooms, and offers a fresh, modern and hi-tech area that is widely used by students and staff. Students use this area for individual or small group mentoring as well as counselling should they require it.

What do we offer to our staff?

- A full programme of CPD – we support your professional development
- A focus on teaching and learning, and staff wellbeing
- Experienced teachers embracing innovative techniques, challenge and reward
- A collaborative and supportive environment
